Landscape Maintenance Information & Service Request

Thank you for considering Lombardo Landscaping & Water Features Inc. as your next landscape maintenance company. We strive to meet your needs and exceed your expectations. In order to do so, we first would like to know how we can help you. Throughout our years of service and experience, we have found that with good communication and a clear understanding of our customers' needs, we keep happy and satisfied customers. Please help us customize a program for your landscaping by completing the simple form on the back side. *Thank you!*

4 KEY COMPONENTS to a great looking landscape!

In order to maintain a great looking yard and garden, we believe there are **four key components** which need to happen. Without all components in place you can jeopardize the look, quality, and life of your yard and garden.

- 1) Maintenance**- This involves proper cutting, edging, and trimming for your lawn, and proper trimming and pruning for your garden (trees and shrubs). This component alone is only one piece of the puzzle.
- 2) Fertilization**- Proper fertilization for both your lawn and garden are crucial to a great looking lawn and garden. Florida soil has very little nutrients and additional elements must be added for most of your ornamental lawns and gardens. Plants are alive just like you and me; they like to EAT well too!
- 3) Irrigation**- When your lawn and garden do not have enough water, nutrients in the soil along with added elements (fertilizer) have no way to get down to the roots. This process is what can make or break the look of your lawn and garden. Plants are alive just like you and me, they like to DRINK good too! (Water)
- 4) Pest/Fungus Control**- Well, all of the above are great but there is one last problem living here in Florida, pests! Both your lawn and garden can be prone to many different infestations of pests that can have a devastating effect on your lawn or plants in a matter of several days if not treated.

Hopefully we didn't scare you off, but thankfully there are companies like Lombardo Landscaping Inc. who can help assist you in all areas. Please understand the difference between a landscaping company and a maintenance company. The maintenance is only one piece of the pie. We are more than happy to assist you whether it is the maintenance or all four parts. Please complete the Service Request on the back side and check off the boxes that apply to your needs.

Thank you and we look forward to working with you in the future!

** All services are individually priced base on the property and the evaluation of the service requested form**
